SUMMARY

Third-year dual-degree Information Systems & Computer Science student at UIT, VNU-HCM seeking a **Software Engineer Internship** where I can contribute **backend APIs**, **fullstack web development**, **database design**, & **AI-assisted application experience**. Strong interest in building practical systems using C#/.NET, Python/FastAPI, TypeScript/React, Java/JavaScript, RESTful API services, SQL/NoSQL databases, & LLM- integrated workflows.

ACADEMIC BACKGROUND

VNUHCM - University of Information Technology
B.Sc. student in Information Systems & Computer Science
Current GPA: 3.1/4.0

Oct 2023 – est. Dec 2027

COMPETITIONS & AWARDS

Consolation Prize , Devo SE Challenge 2026 - University Competition	May 2026
Consolation Prize , SEAPP 2025 - University Competition	Dec 2025
Honorable Mention , ICPC Vietnam National Round - Informatics Olympiad - National	Nov 2025
Honorable Mention , ICPC Vietnam National Round - Informatics Olympiad - National	Sept 2024

SKILLS

Programming Languages:	C++, C#, Python, TypeScript, Java, JavaScript
Frameworks & Libraries:	.NET, FastAPI, React, Tailwind CSS, Flutter
Database:	PostgreSQL, SQL Server, MySQL, SQLite, MongoDB, Oracle
Tools & Version Control:	Git, GitHub, Jira, Figma, Notion, Jupyter, Vite
Soft Skills:	Teamwork, Planning, Communication, Problem Solving, Adaptability
Languages:	Vietnamese (native speaker), English (fluent, 6.5 IELTS)

PROJECTS

SEeds - AI Interview Platform Apr 2026 – May 2026

URL: <https://github.com/Korupama-Organization/SEed> (Frontend) |
<https://github.com/Korupama-Organization/SEed-api> (Backend) |
<https://github.com/jnswkz/mensetsu-bot> (AI Interview)

- Built an AI-powered recruitment platform for resume screening, mock/real interviews, contextual answer evaluation, and recruiter decision support.
- **Technologies:** TypeScript, React, Vite, Tailwind CSS, TanStack React Query, React Router, NestJS, Express, MongoDB/Mongoose, Redis, AWS S3, Python, FastAPI OpenAI API, Speech-to-Text, prompt/context engineering.
- **Role:** AI Developer, Fullstack Developer; developed recruiter dashboard UI components and dashboard APIs, and improved mock interview context and question quality.

InsureAssist - AI-Powered Vehicle Insurance Claim Assistant Mar 2026 – Mar 2026

URL: github.com/AdamNbz/LotusHacks

- Built an AI-assisted vehicle insurance claim intake system for the Vietnam market within 36 hours straight, enabling users to report incidents, receive claim triage, and prepare insurer-specific claim documents through a guided end-to-end workflow.
- **Technologies:** Python, FastAPI, React, TypeScript, Vite, Tailwind CSS, MongoDB, OpenAI API, Zilliz.
- **Role:** Fullstack Developer; contributed to both frontend and backend development for the claim intake flow, user/admin interfaces, and API-driven claim processing features in a hackathon team environment.

eUIT - University Student Information System Nov 2025 – Dec 2025

URL: github.com/AdamNbz/eUIT-SE-APP-2025

- Built a university student information system that supports student information lookup and service-related workflows, helping users access academic information and interact with campus services in one application.
- **Technologies:** C#, .NET 9, RESTful APIs, SignalR, Flutter.
- **Role:** Fullstack Developer; implemented backend APIs in .NET, handled API logic for core modules, and integrated API endpoints into the application GUI to ensure smooth end-to-end functionality.

Student Management Application Feb 2025 – Jun 2025

URL: github.com/AdamNbz/SE104

- Developed a student management application to manage student records and core academic workflows through structured CRUD operations and a consistent data model.
- **Technologies:** C#, .NET, EF Core, SQLite.
- **Role:** Team Leader, Backend Developer; designed the SQLite database, implemented API and data-access layers with .NET and EF Core, and coordinated teammates throughout the project lifecycle.

ACTIVITIES

UIT GamApp Studios Club | Member

Member of the Development Team; Gained software development experience through team-based projects, improving planning, communication, & implementation skills. Oct 2024 – Now
